India's Techade: Chips for Viksit Bharat

Date: 13 March 2024

The Techade initiative, led by Prime Minister Narendra Modi, aims to boost India's self-reliance in semiconductor manufacturing. On 13th March, 2024, the Prime Minister inaugurated three semiconductor projects in Assam and Gujarat via a live video conference broadcast on YouTube, with participation from universities and higher education institutions. The event highlighted the importance of semiconductor manufacturing for India's technological advancement and economic growth. Prime Minister Modi emphasised the history of semiconductor manufacturing, its role in fostering self-reliance, and its potential to create numerous job opportunities across different sectors. He also sees the youth as the real stakeholders of India's future and highlighted their role in shaping the nation's destiny. The broadcast ended with the Prime Minister greeting the esteemed guests and students and ending his speech with the slogan, "Yahi Samay Hai, Sahi Samay Hai".

Number of Students Participated: 195
