JOB DESCRIPTION

PRIMARY RESEARCH ASSOCIATE

Responsibilities:

- Conducting telephonic (Qualitative and Quantitative) and discussions/interviews with senior level executives from organizations across the globe to collect data for research analysis on varied topics.
- Working with search engines, web analytics and business research tools.

Requirements:

- Good communication skills (both written and oral).
- Good with numbers and high attention to detail
- Adequate knowledge of data collection methods (Interviewing respondents over the call, Focus groups, In-Depth discussion on a particular subject etc)
- Strong analytical and critical thinking. Must be open for working in shifts (US/UK).
