

Bharati College University of Delhi

7.1.9 Sensitization of students and employees of the Institution to the constitutional obligations: values, rights, duties and responsibilities of citizens

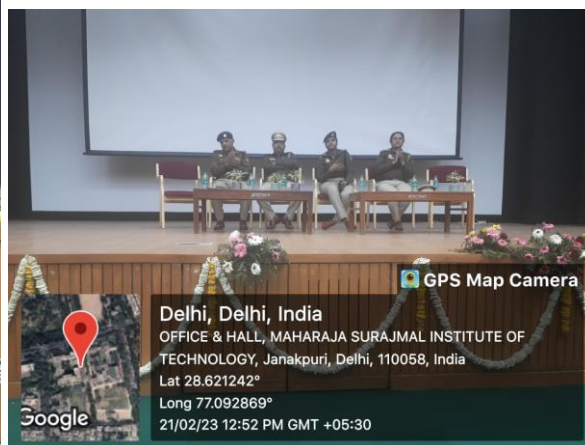

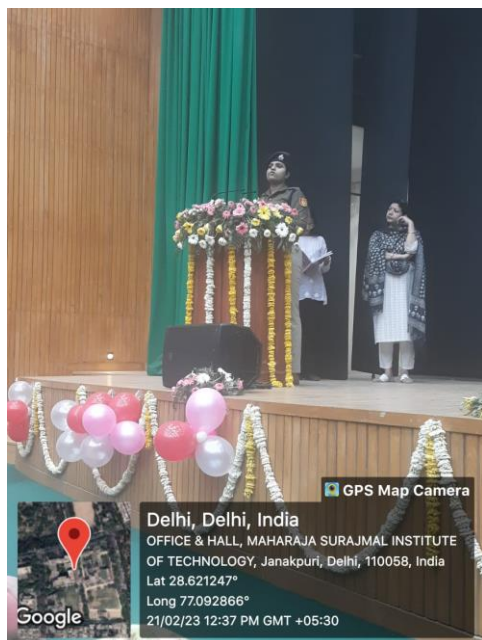

Women Development Cell organized a **student visit** to the public gallery of the **Parliament House** on 24th March 2023 (Friday) to witness live parliamentary session proceedings. A total of 91 students from different departments got the opportunity to witness the live proceedings of the parliamentary session on the same date along with a tour of the Parliament House. The visit was made possible with the kind courtesy and cooperation of the Honourable Member of Parliament (West Delhi), Shri Parvesh Sahib Singh. He imparted wisdom and some facts about how a bill becomes a law. A walk through the corridors of this eminent place was a great experience for the students. Besides, an unexpected rendezvous with the Head of the Ministry of Women and Child Development, honourable Smt. Smriti Zubin Irani and our Finance Minister Smt Nirmala Sitharaman, surely made the visit memorable for students. Their words of wisdom truly enriched the students with the spirit of women's empowerment.

Department of Sociology

A keynote lecture by **Dr. Shivangi Narayan** on the topic 'Governance by Surveillance: An Introduction'.

Bharati College
University of Delhi
HESTIA
DEPARTMENT OF SOCIOLOGY
Presents
A KEY NOTE LECTURE ON

"Governance by Surveillance: An Introduction"

Speaker:
Dr. Shivangi Narayan
Researcher at AGOPOL,
Project Funded by Oslo metropolitan University,
Norway & Norwegian Research Council.

Patron: Prof. Rekha Sapra (Officiating Principal)
Dr. Bindu Kohli (TIC, Sociology Dept.)

Date: 1st November, 2022
Time: 11am onwards
Venue: Seminar Room

Department of Sociology, Bharati College organised a key note lecture on 'Governance by Surveillance: An Introduction' by Dr Shivangi Narayan, Researcher at Agopol, project funded by Oslo University and Norwegian Council. Dr Narayan shared her valuable research on the field of governance through surveillance that is indeed of significance in current scenario. In contemporary times, there is an endless hunger for information (gathering and collection and using it for several purposes) and surveillance is the way for gathering information often compromising our privacy. The relation of governance with technology makes us think about power and how it can make us do worst things possible, if not conscious and self-reflexive about our actions. We correlate the idea of governance by surveillance with the concept of algorithms that is context independent. These algorithms are then constructed to form the database used for establishing knowledge about certain phenomena, often taken as facts rather the real intention and its impact on developing the meaning of social and cultural and political phenomena in everyday life.

Talk was beneficial for faculties and students to bring the debates around surveillance, privacy, data breaching and governance to the forefront. We celebrated the surveillance week with this eye opening lecture and gained enlightenment in the way of transforming us as a conscious individual.
