

The Book

The book has been specially designed in accordance with the syllabus prescribed by the University of Delhi for B.Com. Programme (CBCS), Semester-II, Paper No. 2.3 and also for the students of SOL and NCWEB, University of Delhi. The book has been written in an easy and lucid language so that learners can understand the concepts and their applications easily. The book has been divided into 16 comprehensive chapters. In the beginning of each chapter, learning outcomes are specially listed. It will assuredly help them build self-confidence. It would help them learn what they should know after the completion of the chapter. Each chapter is supplemented by a vast number of solved examples to clarify the concept exhaustively. To gain an insight into the concepts, exercises are given at the appropriate places. Answers to all the problems in each exercise are given immediately at the end of each exercise.
