(2020)

Ananda: Positivity Unfolded
Under the aegis of
Internal Quality Assurance Cell
Bharati College

Event: **ASKING PEOPLE RIDDLES**

The event was held on **January 17th, 2020**

The number of students who participated in the event was 40.

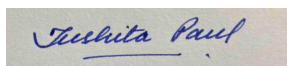

Description: The event entailed asking people riddles at random. The IQAC representatives went around asking students to pick up chits. Each chit contained a riddle that had to be solved. The IQAC representatives spread around urging people to pick up chits and try to solve the riddles. The students were, at first, a little bit hesitant. But once they got a hang of it, they were very excited to try it out. This activity led to a fun and exciting interaction with students as they racked their brains to come up with an answer. The event served well the motto and vision of Ananda, which is to spread happiness and help people find solace in the monotony of their everyday lives.

Ananda believes in giving students a reason to smile and feel positive. Amidst the hectic schedule of classes, assignments and chaos of life, something that makes you pause and cheer, that is *Ananda*. This event helped achieve exactly this motto of Ananda.
