THIS BARTER AGREEMENT FOR WASTE PAPER RECYCLING (hereinafter referred to as "**Agreement**") is made and entered into on this Date 08-06-2018 (hereinafter referred to as "**Effective Date**")

BETWEEN

Principal, Bharati College, University of Delhi, a College registered under the societies Act having its office at C-4, Janak Puri, New Delhi-110058 through Authorized Signatory (Hereinafter referred to as the College "**First party**", which term or expression shall unless excluded by a repugnant to the context mean and include their heirs, executors, administrators, legal representatives and assigns of the one part.

AND

M/s **Green -O-Tech India**, a proprietorship company having office at B1/13, 3rd Floor, Raghu Nagar, Near Janak Cinema, New Delhi-45 through Authorized Signatory (Hereinafter referred to as the Firm "**Second Party**", which term or expression shall unless excluded by a repugnant to the context mean and include their heirs, administrators, legal representative and assigns) of the Second part.

WHEREAS Bharati College, is desirous to get the Waste paper solutions services, as specified by Bharati College which includes the waste paper recovery/ collection from their sites and recycle the same.

AND WHEREAS M/s. Green-O-Tech India is involved in the business of Waste paper recycling which includes the collection of paper from site, recycle the same and deliver specific recycled stationery products (Annexure – I attached).

AND WHEREAS M/s. Green -O-Tech India has offered the services to Bharati College and College has agreed to accept such services from M/s. Green-O-Tech India, as per the terms and conditions contained hereinafter.

TERMS AND CONDITIONS

Part 1 Term of Agreement:

This agreement shall be made effective from the date mentioned above and shall continue for a limited period of one year. This agreement gets automatically renewed every year unless an advance written notice of 30 days is given by one party to the other party of its intention of not renewing the agreement.

Part 2 Services:

- (a) Second party shall collect the paper from said sites of the First Party and supply recycle stationery products as specified in Annexure-I to the first party.
- (b) Second Party requires min quantity of 300 Kg waste paper in one lot. If volume is lower than minimum, then Second party will be charged Rs. 1000.00 per visit as transportation and labor charges which will be paid by client or adjust into the quantity of free products (As per retail cost of these products).
- (c) First Party takes responsibility that all the waste paper which they had collected from their site or offices will be properly organized and segregated.
- (d) First Party assures and take responsibility that the waste paper which they are providing to second party for recycling does not include or effected with any kind of acid or chemical or any other thing which directly or indirectly affect human or environment.
- (e) The Second Party shall collect the waste paper as per decided schedule on the basis of mutual understanding by both parties and Second party shall deliver the recycled products as per First Party requirement within 10 to 15 working days and if First Party need any Customization on products, delivery period will increase accordingly.
- (f) The Second Party shall deliver or offer only specific quantity of recycle stationery product (Annexure-1 attached) to First Party and the quantity always depends on the volume of waste paper recycled through Second Party. Quantity of free products will depends upon market scenario, as and when market rates for required material or resources for recycled products will increase or decrease, the quantity of free products will also increase or decrease. The Second Party shall intimate the First Party 15 days before any change in the quantity of free product.

Part 3 Other Services

- a) If First Party recycles 100 Kg waste paper through Second Party plants a tree free of cost for First Party (plantation cercal yearly bases)
- b) Location and period for plantation will be defined by second party and first party will be communicated 10 to 15 days before the plantation.
- c) All free products offered by Second Party are without any printing or customization. Such requirements should be chargeable or adjust into the quantity of free products (in single colour printing the quantity of free products reduced by 10% and in multi colour printing it will reduce by 20%)
- d) In case of customization minimum quantity of any product should be 100 in Nos. and clients have to take first those all customized products, before putting another requirement for any different product.

Part 4 Relationship:

Second Party asserts that it is an independent service provider, which offers its services to other organizations as and when required. This agreement does not constitute joint venture or agency relationship between Second Party and "First Party" agrees that it will have no right to control or direct the details, manner or means which Second Party uses to accomplish the results of services performed.

Part 5 Termination:

"First Party" may terminate this agreement by giving a 30 days' notice at any time. Second Party may as well terminate this agreement with 30 days prior notice.

Part 6 Settlement of Disputes and Governing Law

- a) Any dispute and differences arising out of or relating to this Agreement including interpretation of its terms will be resolved through joint discussions of the Head – Administration of the concerned Parties. Any dispute, difference or question that is not resolved through joint discussion, within 15 days of its having arisen, shall be referred to a mutually acceptable sole Arbitrator, and if no sole arbitrator is consented to by the parties, then one arbitrator each shall be appointed by both the parties and presiding arbitrator shall be appointed by the two arbitrators so appointed. The proceeding shall be held in New Delhi, in accordance with the provisions of the Arbitration and Conciliation Act, 1996 and the rules

made there under, as amended from time to time. The award of the sole arbitrator/Arbitrator Tribunal shall be final and binding on the parties.

- e) This agreement shall be governed by and construed in accordance with the laws of India. The Parties agree to the executive jurisdiction of the courts located in Delhi.
- f) First Party will not demand for money against the waste paper at any time of period or during settlement, all settlement or disputes will be resolved on the bases and according to the quantity of products which Second Party had offered and accepted by First Party.

Part 7 Confidentiality:

Second party didn't take any kind of responsibility/liability of data or Confidential documents. The documents which are more confidential for that first party have to get shredded or tear it into 2-3 pieces before delivering to second party for recycling.

Part 8 Force Majeure

Neither Party shall be in breach of its obligations under this Agreement or be liable for delay in performing its obligations hereunder to the extent, such failure or delay to perform its obligations result from storm, lightning, floods, any governmental act, fire, earthquake, explosion, accident, industrial dispute, civil commotion, and other acts of God beyond the control of affected Party ("Force Majeure). The Parties shall use all reasonable endeavors to minimize any such delay caused due to Force Majeure event, upon cessation of the event, giving rise to delay, the Parties shall insofar, as may be practicable under the circumstances, complete performance of their respective obligations hereunder.

Part 9 Amendment

No variation, amendment, modification or addition to this Agreement shall be effective or binding on either of the Parties unless set forth in writing and executed by them through their authorized representatives.

EMPOWERING PHYSICALLY CHALLENGED

C-4, Janakpuri, New Delhi

Sub: Report on ^{upgrading the} Rainwater Harvesting System of Bharati College, C-4, Janakpuri, New Delhi

Dear Madam

This is with reference to your mail dated 05.04.2018 regarding the status report of Rainwater Harvesting System in our College premises. Subsequently, I contacted Dr Narender Kumar, Director of Swavlamban (NGO) who is an Environment Scientist and Former Associate Professor of Tamilnadu Agriculture University, Coimbatore, Tamilnadu and a Consultant on Environmental issues.

An inspection was made by him today from 11.45 am till 1 pm to understand the present status of Rainwater Harvesting of the College and submitted the feasibility report which is as follow.

Area Statement

1. Total area of plot of the College: 4.00 Acres (16187.60 sq m)
2. Total Area covered at Rooftop of Main Building= 5049.00 sq m
3. Outlets from the Rooftop on Main Building for Rainwater Harvesting= 4
(The outlets of two pipes are terminating in the open along with elevation of the Building)
4. Total Area covered at Rooftop of the new Building= 3,220.62 sq m
5. Outlets from the Rooftop of the New Building = 4
(The outlets of two pipes are terminating in the open along with elevation of the Building)
6. Total Area covered at Roof top of the Girls Hostel= 1063.52 Sq m
7. Outlets from the Rooftop of the Girls Hostel = 4
(The outlets of two pipes are terminating in the open along with elevation of the Building)
- A. Total Area of Roof top of all existing completed buildings= $5049.00 + 3220.62 + 1063.52 = 9333.14$ sq m

To be
presented to the
GB & file in
Rain Water Harvesting
file
09/07/2018

- B. Open space + Grassy area + Kutcha area+ Cemented Area = 16, 187.60-9,333.14= 6854.46 sq m
- C. Total Rainfall on roof top/annum assuming @ 300 cm/season as per the Meteorological Report = 27999 Cu m (Approximately 28,000 Cu m of water can be recharged through Roof top)
- D. Total Rainfall on kutcha area = 6,854 x 3= 20562 Cu m of water
- E. The storage capacity of water availability in main building= 2000 KL
- F. Presently 5% of the total rooftop water collected during rains is available in the storage tank

Comments on the present status:

1. The Rainwater Harvesting system is available in all the buildings.
2. It requires maintenance due to chocking of pipes with silt, soil and waste.
3. The cleaning of all the pipes is required manually and with the suction machines in order to make way for free flow of water.
4. The maintenance cost is estimated to be Rs 10/m, which then to be calculated to work out the total cost of the cleaning of the pipes after measuring physically the length of pipes cleaned.
5. The recharge pits are required to be cleaned and proper filtration is to be checked after opening the recharge pits. The charges are estimated for cleaning the recharged pits = Rs 1000/feet
6. The storage water tank requires to be physically cleaned. The charges are estimated to be Rs 5000 per storage tank.

(All charges include GST and all other charges and taxes)

Capital expenditure

The Rain water drain pipes from the roof tops are terminating at the ground along with the elevations of the buildings. The water from the roof tops is presently going either to the kutcha area or to the open recharge pits partially. This is again wastage of roof top water. Where ever such cases are there, the termination of roof top drain pipes should be in the storage tanks as mentioned in the diagram sent along with the Guidelines prepared by an expert committee from the University of Delhi (dated 05.04.2018). This water collected in the water harvesting tanks can be used for horticulture purposes or fire -fighting purposes.

The cost the drain pipes is Rs 1500/6 m of length + labor charges which can be Rs 500/man day+ civil construction materials cost.

The rough estimated cost can be worked out to be Rs 3.0 lakhs.

(ANNEXURE - ~~XV~~
3)

It is worth mentioning that the soil of the college campus is saline. Its pH is above 9. Rainwater harvesting will reduce the salinity of the soil and will bring the water table which is at present is around 30 m from the ground level. The termites present in the soil are due to the dryness of the soil and low water table. The above mentioned solutions will reduce the termite problem as well as it will recharge our water table.

This is for your information and necessary action.

REPORT OF WEEDED OUT BOOKS SOLD OUT

Dated: 06.03.2020

Our college library has organized a sale of old and obsolete library books which were weeded out by the College library as per the decision of Library Committee and then approved by Governing Body of the College.

The sale was started from 28th January, 2020 to 07th February, 2020 in front of College Library (Ground Floor) on the token price Rs. 20/- per withdrawn book (up to 250 pages) and Rs.50/- per withdrawn book (more than 250 pages) from 28.01.2020 to 30.01.2020 then on the token price of Rs.10 per withdrawn Book. We had sold total 231 books amounting Rs.4560/- .

Submitted please.

Subject: - Regarding your request for permissions in your proposal, we are pleased to confirm our acceptance to the same and confirm the following points:

1. We authorize you to install 20-25 nos. of your solar light points in exchange to the sponsoring rights on display boards, each of maximum size 42" x 32" (two sided unlit / front lit). All systems would be installed within the premises owned by our institute.
2. We permit you / your sponsors to carry products promotions and display on these boards, installed in our premises on an exclusive basis in our institution's premises for a period of 10 years. Your prior permission is deemed as obtained for all society acceptable advertisements except that of cigarettes, liquor, tobacco and any ads of obscene nature.
3. We shall intimate you of any non-working of systems, whenever it calls for.
4. We both shall give sufficient notice-period(at least six months) to each other, mutually agreeable, in the event of any changes in policy/management / other eventualities which results in revision of terms of our agreement or your action to collect back your solar systems out of our premises, if the need be.
5. We hereby authorize you / your representatives, to enter our institute premises with proper identity, for routine maintenance work, changes in displays and any such visits deemed necessary by you.
6. This permission may be extended further on mutual consent after review on completion of the original permission period.
7. All expenses involved for installation, general upkeep of the system will be your responsibility and we will not be liable for such expenses. You have absolutely right to take back the lamps post and other material at the site. In case of termination of our agreement by any means
8. Both the parties have a right to withdraw and terminate this Agreement by giving 3 months written notice to the other party. You have the absolute right to take back the Lamps post, display and other material at the site in case of termination of this agreement by any means.
9. **Sale of complete system:** In the event the if you intends to sell or transfer the possession of the Demised System, then the you shall provide us with a prior written notice of at least 2 (two) months of such intended sale and will ensure that this agreement to the Demised system is accepted and agreed to be continued by the new owner and keep us indemnified in this regard. A letter shall be issued by the prospective new owner in favour of us confirming that the terms herein agreed to shall be binding on the new owner and that the new owner assumes all rights and liabilities of your as if this had originally been executed between us.
10. In case of any dispute, the point for determination of jurisdiction shall be at New Delhi, India.

To,
Ms Tanya Chadha
Chief Coordinator
Ladli Foundation Trust

Subject: Installation of sanitary pad vending machine with sanitary pad incinerator.

Dear Ma'am,

We are in receipt of your letter via your e-mail. We appreciate the initiatives of Ladli Foundation Trust for empowering & rehabilitating underprivileged and uneducated females and providing basic healthcare and education facilities while dealing with various other social issues.

As per your proposal, we hereby accord our acceptance and seek your assistance in providing sanitary pads for 1 year and installation of 1 sanitary pad vending machine with 3 sanitary pad incinerators in our College campus free of cost. The cost of each sanitary pad dispensed shall be Rs.2/-, which shall be charged from the students and given to your organization. The college also agrees to undertake the safekeeping and maintenance of the sanitary pad vending machines and the sanitary pad incinerators. We would give you mileage along with ONGC's logo on our Website, Annual Report, on Machine and Incinerator.

With regard to conducting the training and sensitization sessions of the students can be decided with mutual consent in this academic session.

You may take necessary steps as discussed and do the needful as desired.

Regards,

Dr. (Mrs.) Mukti Sanjay
