

July 14, 2021

This is to certify that Ritika Chauhan worked with NewsLaundry from March 12, 2021, to July 12, 2021, as an intern.

NewsLaundry is a reader-supported, independent media organisation.

Ritika worked with the editorial, research and production team. As part of the editorial team, her tasks included putting out research for reports and contributing in reporting stories with NL reporters. She assisted in the research for TV Newsance, Explainer's and NL Saransh and database creation for NL Charcha and NL Hafta. She also transcribed interviews for reports on the second wave of the pandemic and Farmers protests.

As part of the production team, she prepared write-ups for NewsLaundry interviews and podcasts including the NL Interview, Reporters without Orders, Awful and Awesome, NL Recess and NL Hafta. Her other tasks included scripting for Daily Dose (a podcast on the news of the day), assisting with the Data Fellowship Programme and fetching potential interviewees for the NL interviews.

She is diligent, curious and well-informed. It was a pleasure working with her. We wish her all the best for the future.
