College: Bharati College

Date of Activity: 19-01-22, 27-01-22, 2-02-2022

Department/Society: HDFE

Program: BA

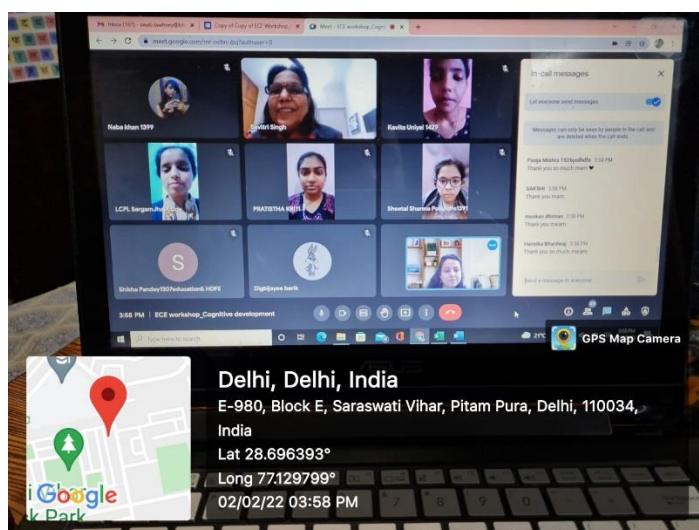

Activity Title: Workshop

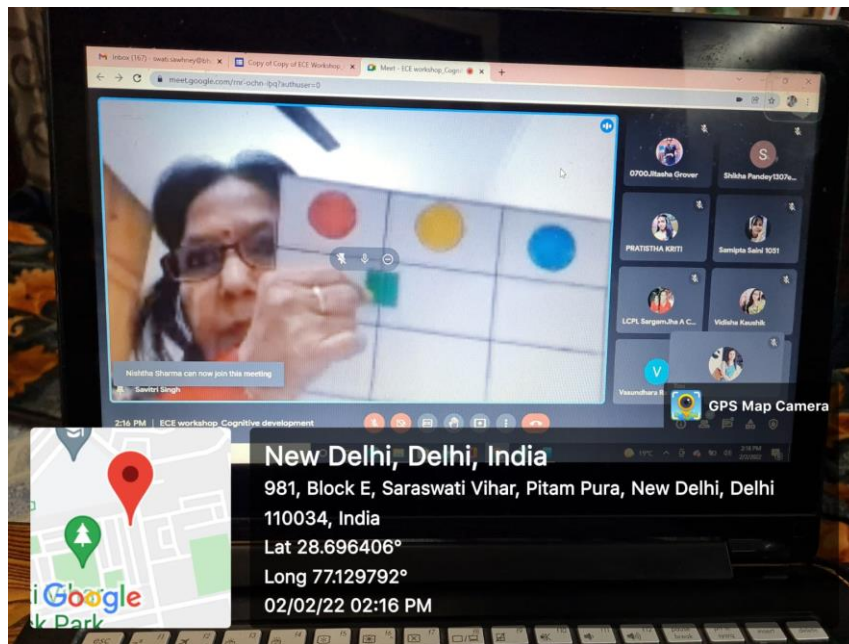

The Department of Human Development and Family Empowerment, Bharati College, University of Delhi, organized a series of workshops, via Google Meet, on Early Childhood Education in Pre-schoolers. The events were enlightened under the expertise of Mrs. Savitri Singh, Ex-Principal, IIT Nursery School, IIT Delhi. Students and teachers from various colleges participated in these enriching sessions.

Workshop on Language Development for Pre-schoolers was held on 19th January'22. Participants were introduced to the different areas in language development like listening skills, speaking skills, oral expression, reading readiness and writing readiness. Innovative ideas were discussed regarding ways to engage the pre-schoolers in language development activities. Next in the series was Workshop on Physical Development and Creativity held on 28th January'22. Activities to develop gross-motor and fine-motor skills in children during pre-school years were explored in this workshop. The participants were also made familiar to the various areas related to creativity and the role of teacher in the classroom to promote holistic development in children. Last workshop, held on 2nd February'22, focused on Cognitive Development in Pre-schoolers. Topics covered in this session were sensorial development, observation, classification, situational thinking, problem-solving and reasoning during early childhood.

The resource person presented and discussed creative ways on how to occupy the interests of pre-schoolers through different activities that are helpful in their all-round development. Her knowledge on the subject effectively guided the participants making the events extremely useful, informative, interactive and successful in every aspect.

1/19/2022 11:58:21	sonamnehra2002@gmail.com		9991223602	Sonam	Student	5	From the beginning of the session respected speaker told us five aspects of language development as development of listening skills, speaking skills, oral expressions, reading readiness and writing readiness. Children are able to differentiate among sounds by actively listening and comparing sounds. A lot on concepts related to language development are cleared after attending the session.	The session was really wonderful and interactive. The way speaker taught us different things on rhyming picture reading, story telling, puppet play etc was something that no one told us. She cleared all the concepts practically so as we are able to understand better.
